

National Blood Transfusion Service - Sri Lanka  
**Sri Lanka Stem Cell Donor Registry (SLSCDR)**

**Pledge form to Recruit Donors for the Sri Lanka Stem Cell Donor Registry (SLSCDR)**

***Volunteering To Become A Stem Cell Donor Is A Noble Act !***

Only about 30% of the patients in need of a stem cell transplant as a life-saving treatment are able to find a matched family donor for Stem Cell Transplantation.

Therefore, a majority of the patients may not be so fortunate...

Approximately 70% of all patients in need of stem cell transplants must find a matching donor outside of their family.

With your help, we can defeat blood cancer, thalassemia and aplastic anaemia !

The Ministry of Health along with the National Blood Transfusion Service (NBTS), Sri Lanka is on the noble mission to fight against blood cancer and blood disorders. The Sri Lanka Stem Cell Donor Registry (SLSCDR) aims to help every patient find a matched donor.

*Your Precious Contribution Towards Saving Lives Starts Here!*

When you pledge to become a stem cell donor, the NBTS will perform HLA testing on your blood/ tissue samples. The SLSCDR will facilitate your tissue typing details to be available in local and global search for stem cell donors. If you do come up as a suitable donor, we will get in touch with you straightaway, enabling you to become a Matched Unrelated Stem Cell Donor for a patient.

If you wish to donate your stem cells to an ailed patient in need, and if you belong to the age group of **18 to 45 years**, you can enlist to be a Matched Unrelated Donor.

Kindly fill the following details in this form.

**SLSCDR is committed to safeguarding your personal data.**

Please indicate the hospital that is most convenient for you to reach, to give samples (Refer attached hospital list). We will let you know the date of sample collection in the near future.

**REGISTRATION**

1.0 PERSONAL INFORMATION						
1.1	Name with initials					
1.2	Full Name					
1.3	NIC		Passport number (if available)			
1.4	Gender	M/F	Date of Birth	History of Pregnancies		Yes/ No
	Have you donated whole blood/aphaeretic platelets before?				Yes/ No	
1.5	Date of last donation		Bar code no.			
1.6	Father's Race		Religion	Country of origin		
	Mother's Race		Religion	Country of origin		

<b>2.0 CONTACT INFORMATION</b>			
<b>2.1</b>	Current Address		Province
<b>2.2</b>	Permanent Address		Province
<b>2.3</b>	Phone number 1		Phone number 2
<b>2.4</b>	Email address		WhatsApp/ Viber/ IMO number

<b>3.0 CONTACT PERSONS</b>			
Please provide the names and contact details of two of your closest relatives (not parents), who will know how to reach you if we are unable to contact you with the above details.			
<b>3.1</b>	1 <sup>st</sup> contact person's name		
	Relationship		
	Telephone Number		Email
<b>3.2</b>	2 <sup>nd</sup> contact person's name		
	Relationship		
	Telephone Number		Email

Participation in the SLSCDR is voluntary and you may withdraw at any time after notifying us. There is however a **'point of no return'** for the patient. This would be about a week before the actual donation, as the patient's own bone marrow is destroyed in preparation for receiving the donated stem cells. At this point, the patient will die unless healthy bone marrow is transplanted. It is therefore very important that you let us know well before this **'point of no return'** if you have any concerns regarding donation.

<b>4.0 I SINCERELY PLEDGE THAT,</b>					
<ul style="list-style-type: none"> <li>I have read and understood everything mentioned above.</li> <li>I wish to be enlisted as a stem cell donor in the SLSCDR and have no objection towards being contacted for further details and sampling.</li> <li>In the event of a change of contact address/ phone number, I will inform the SLSCDR as soon as possible (Contact Email: slscdregistry@gmail.com).</li> <li>Above mentioned information is true and correct to my knowledge.</li> </ul>					
	Name		Signature		Date

**For official use**

	Result					Done on	Entered into SLSCDR database systems	Checked by
